

Quiet-High Performance Exhaust Fans

- ① **Quiet**—Typically operates at noise levels below OSHA limits. Some competitor fans operate as high as 105 dba. We have engineered fans to be as quiet as 64 dba for custom booths.
- ② **Efficient**—Computer-selected for optimum performance at lowest possible fan blade speed
- ③ **Dependable**—High efficiency, Tri-voltage, TEFC motor
- ④ **Quality**—Designed and manufactured in-house; for easy installation, motor and drives ship pre-assembled.

Built To Last

- ⑤ **Precise**—CNC manufacturing means precise hole-positioning for panels that fit squarely together and provide easy bolting
- ⑥ **Quality appearance**—with durable premium grade G-90 galvanized steel
- ⑦ **Durable**—Nut and bolt assembly with pre-punched panels on 6" centers
- ⑧ **Quick assembly**—Panels precision fit, even for the most complex booth designs.

Faster - Easier Installation

- ⑨ **4-Sided panel construction**—Panels with flanges on all four sides mean fewer parts to assemble and eliminates tie-in angles required with two-sided panels
- ⑩ **Computer generated labels**—Labels on every component simplify sorting and speed installation
- ⑪ **Itemized assembly drawings**—Item numbers on labels correspond to components on 3-D exploded view drawings
- ⑫ **Save time and money**—Ease of assembly reduces time and cost of installation

Integrated Steel Design

- ⑬ **Formed support steel structure**—Made from rigid galvanized, heavy gauge steel
- ⑭ **CNC punched**—to precisely align holes with corresponding panels
- ⑮ **Ease of assembly**—Designed to easily bolt between panel flanges
- ⑯ **Monolithic**—Provides smooth booth interior for a cleaner booth environment and meets code requirements

Efficient-Effective Lighting

- ⑰ **Uniform lighting**—With 4-tube fixtures to illuminate evenly
- ⑱ **Cost efficient**—T-8 type fixtures reduce power cost by 20%
- ⑲ **Easy accessibility**—Hinged panel for tube replacement
- ⑳ **Easy mounting**—Light panels with framed openings are designed for bolting fixtures easily into place
- ㉑ **Industrial Rated**—with dust tight seals
- ㉒ **Meets booth code requirements**—UL/ETL listed and labeled

Premium—Secure Shipping

- ㉓ **Damage prevention**—Fully enclosed and banded crating prevents shipping damage on LTL shipments
- ㉔ **No installation down time**—Special piece loading system ensures no missing parts to delay installation
- ㉕ **Quality control**—Shipments cross-checked three times to ensure order is complete along with 100 % customer satisfaction
