

Bench Type Spray Booths

Environmentally Safe

Each Bench Booth exceeds safety and code requirements –NFPA-33, IFC – to protect those that work in any industrial spray environment, and the world outside. Your booth will be designed to efficiently remove the overspray from the painting operation while maintaining uniform air flow throughout the work area.

Space Saving and Ease-of-Use

Bench booths are designed for finishing small parts that must be painted at bench height. We've designed a variety of bench booths that meet your spray requirements while maximizing your floor space. Our bench booths incorporate all of the same design features that are included in our large industrial booths.

Appearance and Durability Your booth will have a quality appearance with our durable premium grade G-90 galvanized steel—a superior steel material that allows our booths to resist corrosion and to last longer.

PACKAGE FEATURES & BENEFITS

- **CNC and CAD Technology** – booth panels are precision-punched on six inch centers, allowing for easy nut and bolt assembly, and exploded view AutoCAD assembly drawings supplied
- **Quiet Exhaust Fan** – typically operates at dBa noise levels below OSHA limits
- **High Efficiency Motor** – all motors match the design performance of the exhaust fan
- **Exhaust Filters** – 20" x 20" filters yield a larger filter area, with a specially spun fiber design to remove paint particles efficiently. A manometer to properly manage filter maintenance is included
- **UL Listed**—all electrical components and latching devices are UL/ETL listed
- **Essential Accessories** – all necessary caulking, nuts and bolts, hardware for proper booth installation

OPTIONS / ACCESSORIES

- Access Doors
- Air Make-up Units
- Air Solenoid Valves
- Constant Velocity Controls
- Control Panels
- Energy savings stand-by/idle mode
- Exhaust Stack Components
- Front Filter Doors
- Heaters / Infrared
- Lighting
- Magnahelic Gauges
- Observation Windows
- Pressurized Air Supply Plenums
- Safety Shut-Down System
- Specialized Filters
