Building your booth the right way for all the right reasons

GENERAL MANUFACTURING

"Since the spray booth went into production, it has worked flawlessly from day one and exceeded your promises of performance. More specifically, it has helped us improve our paint finish quality while lowering our production hours. What more could one ask for?"

Randy McCurdy, President
San Juan Composites LLC

RELIABILITY

MANUFACTURED ON CNC MACHINERY

QUALITY THAT STANDS THE TEST OF TIME

**BOOTH ASSEMBLY GOES QUICKLY
AND SMOOTHLY**

**OVER 35 YEARS OF WORKING WITH THE
TOUGHEST AIR QUALITY LAWS**

WOOD FINISHING

"We purchased a Spray Systems booth to increase production on our conveyorized line. To date, our experience has been totally satisfactory: the air flow is great, the booth is quieter than others in our plant, hardly any maintenance is required, and we're achieving excellent finish quality. Better yet, the whole transaction was handled quickly and smoothly!"

Jeff Gillette, Plant Engineer
Ethan Allen. Inc.

Spray Systems – building your booth the right way for all the right reasons

MADE IN THE USA

 - Drying Enclosures
 - Convection (gas or electric)
 - Infrared (catalytic and electric)
- Turnkey and Custom Systems
- VOC Abatement Systems

LARGE EQUIPMENT MANUFACTURING

"We considered several possible suppliers for two of our new, major painting facilities. We selected Spray Systems because they were very responsive in providing thorough analysis of the project, and developing an innovative approach to the challenges presented. When we selected SSI, we chose not only a vendor, but a business partner."

Bill Doig

Director of Manufacturing
Fleetwood Motor Homes

AEROSPACE FINISHING

"The paint booths, drying ovens, and prep booths we purchased were easy to assemble and met all of our expectations. In particular, the paint booths helped us reduce overspray, achieve great finish quality, and increase painter satisfaction with our job conditions. We'd definitely use Spray Systems again for our future paint spray booth needs."

Paul Sackos

Plant Engineer
Goodrich Corporation
